

UT Bathroom Services (UTBS)

David Chun, Zoe Ng, Joel Wang, Hans Xu

Project Overview

- An Android app that allows users to locate bathroom and water facilities on campus
- Locations are ranked by geographical proximity, cleanliness, user reviews, and other criteria
- User based reviews form central database and are factored into recommendations

Updates

Finished/In Progress

- Mapview with Location Tracking
- Location Pins
- Firebase Standalone Project

Todo List

- Firebase Merge for Location Database
- Location Search/Filter
- Initial data collection for initial ratings
